

INCOSE BLG InDev Mon 30 Feb 2017 - Topic A Group 2

It's about continual improvement.

Control Theory.

Feedback is important. Need to create a Learning Organisation.

Need to react to the environment.

If Reuse is desirable? Don't get stuck in a rut.

Viable System Model (VSM) could be useful.

Are we looking at the world environment.

Will MBSE really improve capability?

Do the staff really understand the rationale? Where do I fit in?

Does the team have the right blend of attitudes? Myers Briggs could be useful.

They've chosen a tool. Have they thought about their people? Is this a good fit?

What are the training needs?

Organisational readiness. How do we do this?

Introduce it one project at a time.

What metrics could be used to gauge success?

Hard to say, and it may not really be measurable.

Feedback would be very important.

Personal mastery /status. Will it be undermined or threatened? Will we get kick-back?

Need a mental model / vision of the future state that is shared.
