

INCOSE BLG InDev Mon 30 Feb 2017 - Topic C Group 1

Political - National & Local

Political hierarchy - staff status

How will it interface with Social Care?

What are the interfaces?

Public may not like changes to services.

Can transport infrastructure cope with centralisation?

Vocationally motivated staff is a benefit.

Bigger resource pool after change. - Resilience.

Opportunities for new tech - Shareable records.

Perhaps patients, rather than providers should be owners of their own records?

Feedback - Double loop learning.

Monitor environment.

1st increment - Set up structures

2nd increment - improve efficiency

Can timeframes line up?

Need an adaptive system.

Involve people

Create a flagship - prove the model.

Is there an incentive for providers to move?

What levers do we have?

Which people are blocking?

Can we give them new responsibilities?

How do you not lose what is good at the moment?

What is good? How do we know?
